## PARTNERING WITH INDUSTRY LEADING EXPERTS

### IHG Way of Clean

We have a long-standing commitment to rigorous cleaning procedures and launched our IHG Way of Clean program in 2015 – developed in partnership with Ecolab and Diversey – both world leaders in hygiene and cleaning technologies and services. This program is now being expanded with additional COVID-19 protocols and best practices – many of which are already in place – to reflect the advice of the World Health Organization, Centers for Disease Control & Prevention and local public health authorities in markets around the world.

### Global Cleanliness Board & Clean Champions

Leading this work is our Global Cleanliness Board – a group of IHG experts in operations, health, safety and guest experience colleagues working with external specialists to define solutions, best practice and implement processes including James Merlino, Chief Clinical Transformation Officer, and team from the Cleveland Clinic, who will provide expert counsel on translating clinical concepts, infectious disease management and overall health optimization.

Our hotel teams will also appoint Clean Champions to continue building the culture of clean instilled in IHG hotels around the world. These champions will focus on guests and colleagues as they navigate the new environment and help on-property teams to consistently deliver these elevated cleanliness standards.

# INTEGRATED VIRAL PROTECTION

World's Only Biodefense Indoor Air  
Protection System

Proven to destroy COVID-19 (99.999%),  
anthrax spores (99.98%) and other airborne
