

HOTEL SAINT AUGUSTINE

A NEIGHBORHOOD HOTEL IN HOUSTON, TEXAS

An Artful Entrant to Houston

The Montrose neighborhood sits at the heart of Houston, geographically and culturally. This 7.5 square mile area is the epicenter of the city's art, food, and nightlife all wrapped up in idyllic splendor. In 1973, Texas Monthly claimed there was "something for everyone" in "the strangest neighborhood east of the Pecos." The statement still rings true today.

In a rarity for H-Town, you can walk to almost anything you dream of: the Museum District boasts 19 world-class art museums and, at Hotel Saint Augustine, you're directly adjacent to one of the most beloved, the Menil Collection. Parks abound—the bucolic Buffalo Bayou, Ervan Chew Dog Park, Mandell Park, Shiffick Park—and taking a long walk through the gorgeous townhomes and architecture isn't a bad way to spend some time outside either. Restaurants and shopping options abound, offering you ample opportunities to collect memories and mementos of your time in Texas. There's a delightful high-low mix throughout the neighborhood—luxury boutiques abutting hodgepodge vintage stories, five-star restaurants intermingling with tried-and-true Southern favorites. The neighborhood wears the dichotomies with pride. You'd do well to explore all ends of the spectrum.

ROOM TYPES

The hotel’s design takes inspiration from the spirit of Menil Collection and of Houston itself—a duality of old world and new, a rich diversity and a forward-thinking sensibility. Artwork is intentionally minimal throughout the property, allowing those who have spent the day exploring Houston’s significant museums might appreciate a serene environment to absorb other artful elements—through artful furniture, luxurious textures, architectural lighting, and surprising objects.

Hotel Saint Augustine offers six varied room types including Atelier (the largest suites), Premier (rooms with balconies and patios), and the unique Petite Queen rooms (200 square foot rooms) that ensure area art and culture is available across multiple price points and types of travelers.

71 guest rooms and suites
